 Objection.
 The Committee questioned the validity of the Water Quality Neutrality Statement with its claims for improvement over hospital use, as the site has not been used as a hospital site since the 1960’s, as is recognised by the applicant in the Design, Access and Heritage Statement:
‘The Depot Barracks ceased to be used in 1958 when the Dorsetshire Regiment and Devonshire Regiment amalgamated, and regimental headquarters were relocated to Exeter.
Many of the buildings which had formed the barracks were sold to Royal Mail and Dorset County Council in the early 1960s, so it is likely that this was the fate of the hospital.’

And has, instead been used as commercial/industrial urban land, as recognised in the applicant's previous applications P/FUL/2021/00826 and P/LBC/2021/00827:

'We do know however that the building has in the relatively recent past been in office use –we understand its last use was as offices for Bere Regis Coaches. Confirmation of this is available in the 'History of Bere Regis Bus Co 1929 -1995'(www.bereregis.org) which states

'from April 2001 the headquarters of the Bere Regis firm- which had been in Dorchester for many years , firstly at Bridport Rd and then in the old barracks on the Grove trading estate– were closed.'

We also know that the offices had been empty since 1995 –when the company ceased trading as an independent concern.'

(Supporting Statement & Heritage Assessment, Richard Burgess MA; MSc; MRTPI, 2021).

The Committee still has concerns about the change of use in this location and requests that the application go before the Dorset Council Northern Area Planning Committee so that the validity of the Water Quality Neutrality Statement in particular be considered.
